Fundamental Theorem: grading scale and make-up
due: Oct. 5, 2005

1. The problems were graded with 2,2,3,4,3,4 points respectively.
2. Scores of 11 or below may do the make-up.
3. Redo only the items you got wrong; attach the original paper.
4. In addition, write a less than one page essay explaining the relevance of this homework assignment to the Johnny Lott excerpt discussed in class on Sept. 28.
