Publications

(1972) (In collaboration with T.B. Benjamin & J.J. Mahony) Model equations for long waves in nonlinear dispersive systems. *Philos. Trans. Royal Soc. London Series A* **272**, pp. 47-78.

(1972) Fixed point theorems for Frchet spaces. In *Lecture Notes in Mathematics* **280**, (ed. W.N. Everitt & B.D. Sleeman) Springer-Verlag: Berlin, pp. 219-223.

(1973) (In collaboration with P.J. Bryant) A mathematical model for long waves generated by wavemakers in nonlinear dispersive systems. *Proc. Cambridge Philos. Soc.* **73**, pp. 391-405.

(1973) (In collaboration with G. Birkhoff & J. Kampé de Fériet) Statistically well-set Cauchy problems. In *Probabilistic Methods in Applied Mathematics* **3** (ed. A.T. Bharucha-Reid) Academic Press: New York, pp 1-120.

(1974) (In collaboration with R.W. Smith) The initial-value problem for the Korteweg-de Vries equation. In *Lectures in Applied Mathematics* **15** (ed. A.C. Newell) American Mathematical Society: Providence, pp. 179-180.

(1974) (In collaboration with D.K. Bose) Fixed point theorems in Fréchet spaces and the existence of solitary waves. In *Lectures in Applied Mathematics* **15**, (ed. A.C. Newell) American Mathematical Society: Providence, pp. 175-178.

(1975) (In collaboration with R.W. Smith) The initial-value problem for the Korteweg-de Vries equation. *Philos. Trans. Royal Soc. London Series A* **278**, pp. 555-601.

(1975) (In collaboration with D.D. Freund & W.G. Pritchard) Symmetry of the solution of the linear diffusive model. Appendix to the paper 'The motion generated by a body moving through a stratified fluid at large Richardson numbers' by B.J.S. Barnard & W.G. Pritchard, *J. Fluid Mech.* **71**, pp. 63-65.

(1975) On the stability theory of solitary waves. *Proc. Royal Soc. London Series A* **349**, pp. 363-374.

(1976) (In collaboration with R.W. Smith) A model for the two-way propagation of water waves in a channel. *Math. Proc. Cambridge Philos. Soc.* **79**, pp.167-182.

(1976) (In collaboration with D.K. Bose & T.B. Benjamin) Solitary-wave solutions for some model equations for waves in nonlinear dispersive media. In *Lecture Notes in Mathematics* **503** (ed. P. Germain & B. Nayroles) Springer-Verlag: Berlin, pp. 207-218.

(1976) (In collaboration with L.R. Scott) Solutions of the Korteweg–de Vries equation in fractional order Sobolev spaces. *Duke Math. J.* **43**, pp. 87-99.

(1978) Fluid mechanics education in the U.S.A. In *Proceedings of the Skola Letnia Mechaniki Plynow (held in Mikolajki, Poland) Zeszyty Naukowe Akadimii Rolniczo-Technicznej: Olstyn*, pp. 93-97.

(1978) Review of the book Differential equations and their applications by M. Braun, *Bull. American Math. Soc.* **84**, pp. 41-47.

(1980) (In collaboration with W.G. Pritchard & L.R. Scott) Solitary-wave interaction. *Phys. Fluids* **23**, pp. 438-441.

(1980) Review of the book *Navier-Stokes equations* by Roger Temam. *J. Fluid Mech.* **96**, pp. 827-829.

(1980) (In collaboration with V.A. Dougalis) An initial- and boundary-value problem for a model equation for propagation of long waves. *J. Math. Anal. Appl.* **75**, pp. 501-522.

(1980) (In collaboration with W.G. Pritchard & L.R. Scott) A posteriori error estimates for exact and approximate solutions of time-dependent problems. In *Proceedings of the Seminar on Numerical Analysis and its Applications to Continuum Physics* (held in Rio de Janeiro) Coleção ATAS, **12**, Sociedade Brasileira de Matemática: Rio de Janeiro, pp. 101-111.

(1980) Model equations for waves in nonlinear dispersive systems. In *Proceedings of the International Congress of Mathematicians* (held in Helsinki, 1978) Academia Scientiarum Fennica: Hungary, pp. 887- 894.

(1980) Solitary waves. In *Proceedings of the Seminar on Numerical Analysis and its Applications to Continuum Physics* (held in Rio de Janeiro) Coleção ATAS, **12**, Sociedade Brasileira de Matemática: Rio de Janeiro, pp. 203-210.

(1980) Solitary waves and other phenomena associated with model equations for long waves. *Fluid Dynamics Transactions* **10** Panstwowe Wydawnictwo Naukowe: Warszawa, pp. 77-111.

(1981) Convergence of periodic wave trains in the limit of large wavelength. *Appl. Sci. Res.* **37**, pp. 21-30.

(1981) On solitary waves and their role in the evolution of long waves. In *Applications of Nonlinear Analysis in the Physical Sciences* (ed. H. Amann, N. Bazley, & K. Kirchgässner) Pitman: London, pp. 183-205.

(1981) (In collaboration with W.G. Pritchard & L.R. Scott) An evaluation of a model equation for water waves. *Philos. Trans. Royal Soc. London Series A* **302**, pp. 457-510.

(1981) (In collaboration with B. Boczar-Karakiewicz) Formation of sandbars by progressive waves on sandy coasts. *Mitteilungen des Leichtweift-Instituts für Wasserbau der Technischen Universität Braunschweig* **70**, pp. 377-420.

(1982) Stability of solitary-wave solutions of the Benjamin-Ono equation. In *Escola de Matematica Aplicada III*, Sociedade Brasileira de Matemática Aplicade e Computaçional: Rio de Janeiro, pp. 207-214.

(1983) (In collaboration with R. Winther) The Korteweg-de Vries equation, posed in a quarter plane. *SIAM J. Math. Anal.* **14**, pp. 1056-1106.

(1983) (In collaboration with W.G. Pritchard & L.R. Scott) A comparison of solutions of two model equations for long waves. In *Lectures in Applied Mathematics* **20**, (ed. N. Lebovitz) American Mathematical Society: Providence, pp. 235-267.

(1983) (In collaboration with D.P. Bennett, R.W. Brown, S.E. Stansfield & J.D. Stroughair) The stability of internal solitary waves in stratified fluids. *Math. Proc. Cambridge Philos. Soc.* **94**, pp. 351-379.

(1983) (In collaboration with D.K. Bose & R.E.L. Turner) Finite-amplitude steady waves in stratified fluid. *J. Math. Pures et Appliq.* **62**, pp. 389-439.

(1985) (In collaboration with B. Boczar-Karakiewicz & G. Chapalain) On sediment transport rates and related time scales for sand bar formation in coastal zones. In *Proceedings of the 1985 Canadian Coastal Conference* (ed. D.L. Forbes) National Research Council: Ottawa, pp. 271-285.

(1985) (In collaboration with W.G. Pritchard & L.R. Scott) Numerical schemes for a model for nonlinear dispersive waves. *J. Comp. Phys.* **60**, pp. 167-186.

(1985) (In collaboration with M.E. Schonbek) Travelling-wave solutions of the Korteweg-de Vries-Burgers equation. *Proc. Royal Soc. Edinburgh A* **101**, pp. 207-226.

(1986) (In collaboration with J.-C. Saut) Singularités dispersives de solutions d'équations de type Korteweg- de Vries. *Comptes Rendus de l'Académie des Sciences de Paris* **303**, pp. 101-103.

(1986) (In collaboration with B. Boczar-Karakiewicz) Scale effects in modelling sandbar formation in coastal regions. In *Scale Effects in Modelling Sediment Transport Phenomena* National Res. Council: Ottawa, pp. 46-61.

(1986) (In collaboration with V.A. Dougalis & O.A. Karakashian) Fully discrete Galerkin methods for the Korteweg–de Vries equation. *J. Comp. & Math. with Appl.* **12A**, pp. 859-884.

(1986) (In collaboration with B. Boczar-Karakiewicz) Wave-dominated shelves: a model of sand-ridge formation by progressive, infragravity waves. In *Shelf sands and sandstones* (ed. R.J. Knight & J.R. McLean) Canadian Society of Petroleum Geologists Memoir 11, pp. 163-179.

(1987) (Edited with C. Dafermos, J. Ericksen & D. Kinderlehrer) *Dynamical Problems in Continuum Physics, IMA series in Mathematics and its Applications* **4**, Springer-Verlag: New York.

(1987) (In collaboration with B. Boczar-Karakiewicz & D. Cohen) Interaction of shallow-water waves and bottom topography. In *Dynamical Problems in Continuum Physics* (ed. J. Bona, C. Dafermos, J. Ericksen & D. Kinderlehrer) *IMA series in Mathematics and its Applications* **4** Springer-Verlag, New York, pp. 131-176.

(1987) (In collaboration with J.P. Albert & D. Henry) Sufficient conditions for stability of solitary-wave solutions of model equations for long waves. *Physica D* **24**, pp. 343-366.

(1987) (In collaboration with B. Boczar-Karakiewicz & G. Drapeau) A model of sand ridge formation by progressive infragravity waves on the Scotian Shelf, Sable Island area. In *Coastal Sediments '87* American Soc. Civil Engineers: New York, pp. 2157-2176.

(1987) (In collaboration with P.E. Souganidis & W.A. Strauss) Stability and instability of solitary waves of KdV–type. *Proc. Royal Soc. London A* **411**, pp. 395-412.

(1988) (In collaboration with R. Sachs) Global existence of smooth solutions and stability of solitary waves for a generalized Boussinesq equation. *Commun. Math. Phys.* **118**, pp. 15-29.

(1988) (In collaboration with J.P. Albert & M. Felland) A criterion for the formation of singularities for the generalized Korteweg-de Vries equation. *Matemática Aplicade e Computaçional* **7**, pp. 3-11.

(1989) (In collaboration with B. Boczar-Karakiewicz & B. Pelchat) Coastal sand bars and obliquely incident waves. In *XXIII Congress of the International Association for Hydraulic Research*, National Research Council: Ottawa, pp. 151-158.

(1989) (In collaboration with R. Winther) The Korteweg-de Vries equation in a quarter plane, continuous dependence results. *Diff. & Integral Eq.* **2**, pp. 228-250.

(1989) (In collaboration with B. Boczar-Karakiewicz & G. Chapalain) Modeling of sand bars in coastal environments. In Sediment Transport Modeling (ed. S. Wang) American Soc. Civil Engineers: New York, pp. 166-171.

(1989) (In collaboration with C.J. Amick & M.E. Schonbek) Decay of solutions of some nonlinear wave equations. *J. Diff. Eq.* **81**, pp. 1-49.

(1989) (In collaboration with M.S. Santos) On the structure of the equilibrium set of overlapping-generations economies. *J. Math. Econ.* **18**, pp. 209-230.

(1989) (In collaboration with R. Sachs) The existence of internal solitary waves in a two-fluid system near the KdV – limit. *J. Geo. & Astro. Fluid Dynamics* **48**, pp. 25-51.

(1989) (In collaboration with L. Abdelouhab, M. Felland & J.-C. Saut) Non-local models for nonlinear, dispersive waves. *Physica D* **40**, pp. 360-392.

(1990) (In collaboration with T.B. Benjamin & D.K. Bose) Solitary-wave solutions of nonlinear problems. *Philos. Trans. Royal Soc. London Series A* **331**, pp. 195-244.

(1990) (Co-editor) Priming the calculus pump: innovations and resources. *MAA Notes Series* **17**, Math. Assoc. of America: Providence.

(1991) (In collaboration with J.P. Albert) Total positivity and the stability of internal waves in fluids of finite depth. *IMA J. Applied Math.* **46**, pp. 1-19.

(1991) (In collaboration with B. Boczar-Karakiewicz & B. Pelchat) Sediment transport, sand ridges and internal waves on continental shelves. In *Coastal Sediments '91* (ed. N. Krause) American Soc. Civil Engineers: New York, pp. 527-541.

(1991) (In collaboration with J.P. Albert) Comparisons between model equations for long waves. *J. Nonlinear Sci.* **1**, pp. 345-374.

(1991) (In collaboration with B. Boczar-Karakiewicz & B. Pelchat) Interaction of internal waves with the sea bed on continental shelves. *Continental Shelf Res.* **11**, pp. 1181-1197.

(1991) (In collaboration with V.A. Dougalis, O.A. Karakashian & W. McKinney) Fully-discrete methods with grid refinement for the generalized Korteweg-de Vries equation. In *Viscous Profiles and Numerical Methods for Shock Waves* (ed. M. Shearer), SIAM: Philadelphia, pp. 1-11.

(1992) (In collaboration with R. Nelson) Relative size and comparative value in Byzantine illuminated manuscripts: some quantitative perspectives. In *Paleografie e Codicologia Greca* (ed. D. Harlfinger & G. Prato) Edizioni dell'Orso: Alessandria, Italy, pp. 339-353 & 187-190.

(1992) (In collaboration with B.A. Case, R.A. Alo et al.) Heeding the call for change. In *MAA Notes* **27** (ed. L. Steen) Mathematics Association of America: Washington, pp. 227-247.

(1992) (In collaboration with V.A. Dougalis, O.A. Karakashian & W.R. McKinney) Numerical approximation of blow-up and decay of solutions of the generalized Korteweg-de Vries-Burgers equation. In *Proceedings of the ERCIM Workshop on numerical methods for linear and nonlinear problems in wave propagation*, FORTH: Heraklion, pp. 69-78.

(1992) (In collaboration with G. Ponce, J.-C. Saut & M. Tom) A model system for the strong interactions between internal solitary waves. *Commun. Math. Physics* **143**, pp. 287-313.

(1992) (In collaboration with F. Abergel) A mathematical theory for viscous free-surface flows over a perturbed plane. *Arch. Rational Mech. & Anal.* **118**, pp. 71-93.

(1992) (In collaboration with V.A. Dougalis, O.A. Karakashian & W.R. McKinney) Computations of blow up and decay for periodic solutions of the generalized Korteweg-de Vries equation. *Appl. Numerical Math.* **10**, pp. 335-355.

(1992) (In collaboration with V.A. Dougalis, O.A. Karakashian & W.R. McKinney) Numerical solution of the generalized Korteweg-de Vries-Burgers equation with adaptive Galerkin methods. In *Volume 1 of Proceedings of the First National Congress on Computational Mechanics* (ed. D. Deskos) University of Patras Press: Patras, pp. 220-228.

(1993) (In collaboration with B. Boczar-Karakiewicz & L.A. Jackson) On 'soft' protection of sandy beaches in wave-dominated environments. In *Advances in Hydro-Science and Engineering* **1** (ed. S.S.Y. Wang) University of Mississippi Press: University, Mississippi, pp. 1689-1696.

(1993) (In collaboration with J.-C. Saut) Dispersive blow-up of solutions of generalized Korteweg-de Vries equations. *J. Diff. Eq.* **103**, pp. 3-57.

(1993) (In collaboration with B. Boczar-Karakiewicz & L.A. Jackson) Beach dynamics and nourishment of offshore bars: Gold Coast, Australia. In *Volume 2 of Proceedings of the International Coastal Geomorphology Symposium* (held in Hilton Head Island, South Carolina) (ed. P. Bruun and organized by J. Coastal Research) pp. 224-229.

(1993) (In collaboration with L. Luo) Decay of solutions to nonlinear, dispersive, dissipative wave equations. *Diff. & Integral Eq.* **6**, pp. 961-980.

(1994) (In collaboration with S. Rajopadhye & M.E. Schonbek) Models for propagation of bores I. Two-dimensional theory. *Diff. & Integral Eq.* **7**, pp. 699-734.

(1994) (In collaboration with M. Santos) On the role of computation in economic theory. In *Economie Mathématique et Finance Mathématique* (ed E. Jouini) ENSAE: Paris, pp. 1-29.

(1994) (In collaboration with A. Soyeur) On the stability of solitary-wave solutions of model equations for long waves. *J. Nonlinear Sci.* **4**, pp. 449-470.

(1994) (With M.J. Ablowitz, T. Taha and A. Newell, editors) Solitons, nonlinear waves and computation, *Proceedings of the 7th IMACS Conference on Computer Methods for Partial Differential Equations*, Math. & Computers in Simulation **37**.

(1994) (In collaboration with K. Promislow & C.E. Wayne) On the asymptotic behavior of solutions to nonlinear, dispersive, dissipative wave equations. *Math. & Computers in Simulation* **37**, pp. 265–277.

(1995) (In collaboration with L. Luo) Initial-boundary value problems for model equations for the propagation of long waves. In *Evolution Equations* (ed. G. Gerreyra, G. Goldstein and F. Neubrander) *Lecture Notes in Pure and Appl. Math.* **168** Marcel Dekker: New York, pp. 65–94.

(1995) (In collaboration with B. Boczar-Karakiewicz A. Naguszewski & W. Romańczyk) Dynamics of sand bars in coastal zones. In *Vol. 1 of Proceedings of the International Conference "Coastal Dynamics '95"*, (held in Gdańsk, Poland) American Soc. Civil Engineers: New York, pp. 862–67.

(1995) (In collaboration with V.A. Dougalis, O.A. Karakashian & W.R. McKinney) Conservative, high-order numerical schemes for the generalized Korteweg-de Vries equation. *Philos. Trans. Royal Soc. London Series A* **351**, pp. 107–164.

(1995) (In collaboration with L. Luo) More results on the decay of solutions to nonlinear, dispersive wave equations. *Discrete & Cont. Dynamical Sys.* **1**, pp. 151–193.

(1995) (in collaboration with J.M. Restrepo) Three-dimensional model for the formation of longshore sand structures on the continental shelf. *Nonlinearity* **8**, pp. 781–820.

(1995) (In collaboration with M. Scialom) The effect of change in the nonlinearity and the dispersion relation of model equations for long waves. *Canadian Appl. Math. Quarterly* **3**, pp. 1–41.

(1995) (in collaboration with J.M. Restrepo) Discretization of a model for the formation of longshore sand ridges. *J. Comp. Phys.* **122**, pp. 129–142.

(1995) (In collaboration with K. Promislow and C.E. Wayne) Higher-order asymptotics of decaying solutions of some nonlinear, dispersive, dissipative wave equations. *Nonlinearity* **8**, pp. 1179–1206.

(1995) (In collaboration with M. Scialom) On the comparison of solutions of model equations for long waves. *Matemática Contemporânea* **8**, pp. 21–38.

(1996) (In collaboration with H.A. Biagioni, R.J. Iorio, Jr. & M. Scialom) On the Korteweg-de Vries-Kuramoto-Sivashinsky equation. *Adv. Diff. Eq.* **1**, pp. 1–20.

(1996) (In collaboration with Y. Li) Analyticity of solitary-wave solutions of model equations for long waves. *SIAM J. Math. Anal.* **27**, pp 725–737.
