

EMERGING Scholars ESP PROGRAM

The Emerging Scholars Program (ESP)

offers intensive mathematics workshops for students enrolled in corresponding math courses. Participants work in groups to solve interesting and challenging problems related to the course material. Additional homework is not assigned in the workshop. Specially trained Math TAs and Undergraduate Assistants facilitate the workshops.

Workshops are open to all UIC students. The course carries one hour of Satisfactory/Unsatisfactory credit. Students register for the ESP workshop section and contact the department (see below) to be given permission to enroll in the corresponding math lecture and discussion.
