

## Statistics and Data Science Seminar

### *How to Become an Effective Statistician in a Pharmaceutical Company*

Dr. Xianwei Bu (AbbVie Inc.)

**Abstract:** This oral presentation introduces the clinical trials and new drug development in a pharmaceutical company and a statistician's roles and responsibilities during the process. Some commonly used statistical analysis methods in clinical trials are described. Priorities and timelines are highlighted as two features for a statistician, followed by a summary of how to become an effective statistician in a pharmaceutical company.
