

RTG Workshop Talk

The hyperkahler stucture of the Hitchin moduli space

Laura Fredrickson (Stanford University)

Abstract: The Hitchin moduli space is hyperkahler. I'll give an introduction to hyperkahler geometry geared towards the Hitchin moduli space. We'll define the hyperkahler metric on the Hitchin moduli space.

The talk is part of the 2-day meeting <http://schapos.people.uic.edu/Higgs-2017.html> " RTG Workshop on the Geometry and Physics of Higgs bundles II "
